

The State of New Mexico has been listening to our community and school representatives who are concerned about access to vision services for children. We know many students lack vision care. We are partnering with NM Lions Operation KidSight (NMLOKS), Inc., to assist you in ensuring that each student with less than optimal vision in the state of New Mexico is afforded an opportunity to take full advantage of their schools academic programs.

Through two outreach initiatives, NMLOKS' goal to provide vision screenings to NM students and the "Save Our Children's Sight Fund" Program, a comprehensive eye examination and eyeglasses will be provided to any Pre-K through 19 years of age youth in need who does not have vision insurance.

We are currently seeking the assistance of all eye care providers and eyeglasses providers to be a part of this statewide program and to complete the following registration form and fax it back to the NMLOK central office to begin receiving referrals.

Compensation for your services and product will be a maximum of:

Reimbursement for Dilated Comprehensive Eye Exam...\$100.00

Reimbursement for 1 Pair of Polycarbonate Lenses & Frames...\$75.00

Please submit **one invoice per patient** with a copy of your evaluation form via fax or US Mail **upon completion of services and when the product becomes available** for the patient pick up. Please send the documents to the NMLOKS Central Office at fax number 575-524-1699 or 1501 North Solano Drive, Las Cruces, New Mexico 88001. Payments will be mailed within a maximum of 30 days upon submission. Our goal is to issue payment much faster though.

An added value when joining the network is also that each student's parent will be getting a list of our network preferred providers whether or not they qualify for the assistance program or not so additional business may come your way just by joining.

Thank you in advance for your participation in the New Mexico Lions Operation Kidsight and the Save Our Children's Sight Fund initiatives.
